

BHASKAR DWIVEDI

dwivedi.bhaskar24@gmail.com | +91-7974127627 | +91-8827891478 | Bengaluru, Karnataka

PROFESSIONAL SUMMARY

Senior Software Engineer with 8+ years of experience in developing and maintaining web applications across backend and full-stack environments.

Strong hands-on experience with JavaScript, Node.js, GraphQL, and MongoDB, along with exposure to enterprise platforms such as AEM and Coveo. Contributed to the delivery of scalable solutions for healthcare and automotive projects by developing APIs, integrating data from multiple systems, and supporting frontend applications. Work on frontend in React.js, Angular, and Vue.js, delivering scalable, responsive, and user-centric web applications. Skilled in cross-functional collaboration, software development lifecycle (SDLC), clean code practices, performance optimization, and agile methodologies.

Experienced in leveraging AI-assisted development tools such as Copilot, WindSurff and ChatGPT to accelerate development, troubleshoot code issues, generate unit tests, improve code quality, and enhance overall productivity.

SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Backend	Node.js, Express.js, GraphQL, REST APIs, MongoDB
Frontend	React.js, Angular (2+), Angular.js, Vue.js, jQuery, Bootstrap
Testing	Jest, Mocha, Unit Testing, Integration Testing, Test-Driven Development
Tools	Git, Agile/Scrum, Code Review, API Integration
Healthcare Tech	ECQM / CMS Compliance, Patient Risk Assessment APIs, Predictive Analytics

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Emids Technologies Pvt. Ltd. — Bengaluru, India, *September 2022 – Present*

Project 1: Humana – CenterWell Healthcare Platform (Node.js, GraphQL, AEM, Coveo)

- Architected and delivered GraphQL APIs powering enterprise React UI applications, aggregating data from AEM and Coveo content platforms, reducing frontend data-fetch latency.
- Developed Adobe Experience Manager (AEM) content components and article pages, reducing content author publish.
- Authored comprehensive unit and integration test suites (Jest/Mocha) achieving 85%+ code coverage, significantly lowering production defect rates across quarterly release cycles.
- Collaborated with frontend, QA, and product teams to resolve critical data mapping, component rendering, and design inconsistency issues, sustaining healthcare portal.
- Investigated and resolved production issues across data flow, content delivery pipeline, and frontend rendering layers, reducing mean-time-to-resolution (MTTR) by ~40%.

Project 2: Diameter Health – ECQM (Electronic Clinical Quality Measures) Platform (Node.js)

- Developed a new ECQM module in Node.js fully compliant with CMS (Centers for Medicare & Medicaid Services) version requirements, enabling accurate clinical quality reporting for US healthcare clients.
- Built and exposed RESTful APIs for healthcare data processing, predictive analytics, and patient risk assessment, supporting data-driven clinical decision-making workflows.
- Provided ongoing feature enhancements and production support for the existing ECQM product, ensuring system stability and regulatory compliance across update cycles.

Associate Consultant – Frontend Engineer | Infosys Ltd. — Pune, India, *February 2021 – August 2022*

Project: Mercedes-Benz – GME Grey Market App & Equipment List (EL) Application (Angular, Vue.js)

- Built and maintained Angular and Vue.js modules for a Spring Boot enterprise application used by one of the world's leading automotive manufacturers to manage global vehicle export data.
- Delivered the Equipment List (EL) web module for configuring new model launch templates, cutting manual configuration effort by 30% and accelerating time-to-market for new vehicle models.
- Spearheaded frontend performance optimizations (lazy loading, component refactoring, bundle optimization) that improved application page load times by ~25% across the GME platform.

Software Developer – Full Stack | SynergyTop Softlab Pvt. Ltd. — Indore, India, *September 2018 – February 2021*

- Designed and delivered full-stack features across 5+ client products using React.js, Angular.js, and Node.js.
- Built Node.js and MongoDB backend for the Mariner maritime training platform, managing vessel records, sea-time tracking, and automated certificate expiry notifications for 10,000+ registered mariners.
- Developed the Machadalo offline advertising campaign management platform (Angular.js), enabling marketing, procurement, and accounting teams to manage multi-vendor campaigns end-to-end.
- Developed Aright Connection job marketplace (React.js / Node.js) connecting job seekers with corporate and individual recruiters through dual-role registration and matching workflows.
- Built the CPP construction project management product (React.js / Parse Server), enabling project teams to manage activities, milestones, and deliverables in real time.
- Developed the Network admin panel (Node.js / Angular.js) for a telecom company, tracking project investments, profit/loss reports, and full employee lifecycle management from onboarding to present.

Associate Software Developer | Techrific Technology — Indore, India, *May 2017 – July 2018*

- Advanced from foundational HTML/CSS development to full MEAN stack ownership within 12 months, demonstrating rapid technical growth and a self-driven learning approach.
- Built and launched the Platform-Portal admin panel (React.js / Node.js), a multi-tenant project management system with role-based access control (Admin, Write, Read) supporting 100+ concurrent users.
- Delivered ExamVisor online examination platform (Node.js / Angular.js) supporting real-time student performance analytics, configurable test allotment, and institute-level dashboards.

Installation Engineer | Ahead Telecom — Indore, India, *September 2016 – April 2017*

- Coordinated a team of 20 field technicians across multiple cell tower installation and site survey projects, consistently meeting project delivery deadlines.
- Managed end-to-end installation lifecycle — including site assessment, planning, and commissioning — for large-scale telecom infrastructure deployments.

EDUCATION

Bachelor of Engineering – Electronics & Communication (BE, EC)

Surabhi College of Engineering & Technology, Bhopal | RGPV University | 2012 – 2016 | CGPA: 7.18 / 10.0

LANGUAGES

English | Hindi
